Technology  
Consultants & Engineers

# The Leader In Standards-Based Technology Solutions

Intertech Associates (IA) is the preferred consultant for over 200 schools, municipalities, public safety agencies, and commercial clients. IA offers a range of consulting engineering services for evolving technology, telecommunications, and security solutions.

Saving clients millions of dollars through innovative, cost-effective solutions, IA's principal-driven team ensures well-managed projects that blend efficiency with function.

IA's standards-based solutions have set industry precedents that relate directly to our three decades of service and our unwavering commitment to our clients. Unaffiliated with any equipment supplier, we recommend only the most cost-effective technology solutions possible, avoiding vendor-driven, proprietary designs.

Our services include feasibility assessments; technology standards and master plans; and engineering of voice, data, and video networks, security systems, building controls, and public safety communications.
